Letter to the Shareholders

Dear Shareholders,

In the first 9 months of the second liquidation year, the Liquidator discussed the status of the liquidation with the Supervisory Board and distributed additional cash to the shareholders. On June 8, 2016, an initial distribution of EUR 2.00 per share was made to shareholders. An additional EUR 0.90 per share was then distributed on August 2, 2016. Altogether, a total of EUR 10.43 per share or EUR 44.7 million has been distributed to shareholders in three tranches since the business was sold.

In addition, progress was made with the liquidation. To save costs, we moved into much smaller offices and forged ahead with the proceedings against the former tax advisor and the special VAT audit. Nevertheless, we cannot currently calculate the financial outcome of these proceedings or how long they will take.

I would like to thank everyone for their work and for their trust and support in the first 9 months of the new liquidation year.

Signed Jorgen Madsen

Liquidator

Earnings

In the past 9 months, as in the first 9 months of 2015/2016, no material expenses were incurred in the liquidation phase that were not covered by the provision established for liquidation. The interest and other income related to the cash invested in a term until the distribution to the shareholders. The interest was payable as the respective tranches mature.

Financial Condition

Other assets of EUR 1,234 k (previous year: EUR 449 k) relate primarily to claims against the tax authorities from decisions in August 2016 pursuant to the ongoing VAT audit. The Company still assumes as in previous years that it was and still is entitled to deduct input VAT during the period being audited. Accordingly, the Company filed an objection to the preliminary decisions and showed the amounts refunded to the tax authorities for input tax plus interest under other assets. Due to the distribution of EUR 12.4 million and the refund of input VAT plus interest of EUR 0.7 million, cash in banks fell by EUR 13.6 million from

May 1 and now amounts to EUR 1.8 million. An additional EUR 0.4 million was spent on the planned, provisioned expenses. Accordingly, the other provisions and the trade payables decreased as well. Equity amounted to EUR 2.4 million, down from EUR 14.8 million at the beginning of the 9 months period. That corresponds to an equity ratio of 78%, down from 93% at May 1, 2016.

Report on Risks and Opportunities, Forecast

The Company is not aware of any matters that would result in a change in the material forecasts and other statements made in the last management report on the progress of the liquidation of the Company during the current fiscal year. The statements on risks and opportunities made in the annual report for the liquidation year from May 1, 2015 to April 30, 2016 remain unchanged. In particular, because of the two ongoing proceedings, the duration of the liquidation and the amount of the final distribution remain uncertain.
